

DEATH NOTE

デスノート

Light Yagami in the class

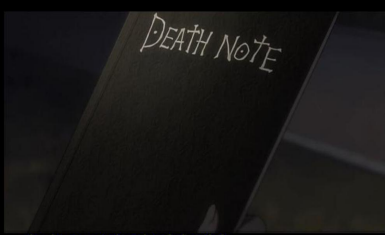

death note falls from the sky

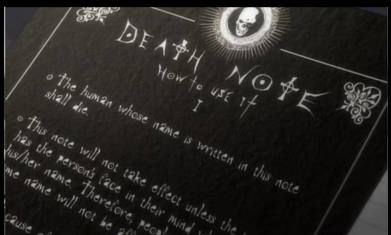

suspense music

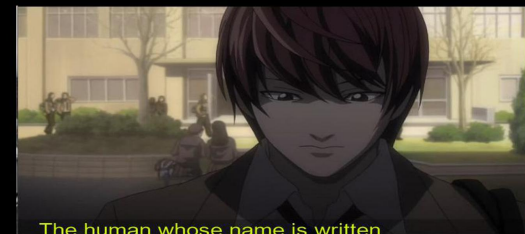

Death note?

As in a notebook of death?

Hmm.. How to use it:

The human whose name is written in this book... shall die!!

Hmm. It's pretty lame.

This is so sick.

It's not that different from those chain letters you get.

*The human whose name is

written in this shall die..? C'mon.

Seriously..

Train whistle

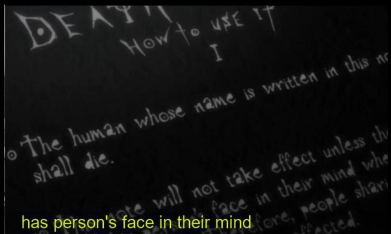

There must be something wrong with me

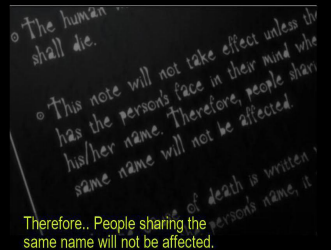

to even consider it.

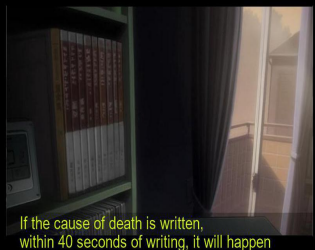

This note will not effect unless the writer

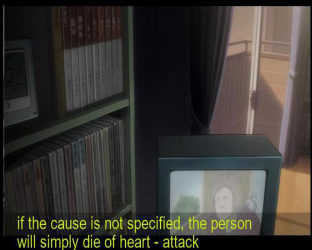

has person's face in their mind when writing his/her name.

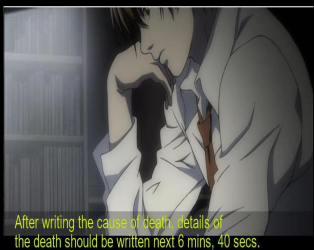

Therefore.. People sharing the same name will not be affected.

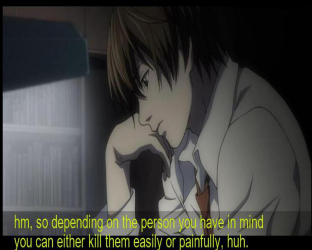

If the cause of death is written, within 40 seconds of writing, it will happen

If the cause is not specified, the person will simply die of heart - attack

After writing the cause of death, details of the death should be written next 6 mins, 40 secs.

hm, so depending on the person you have in mind you can either kill them easily or painfully, huh.

This is pretty detailed for a prank

I'll give them that.

Hmm...

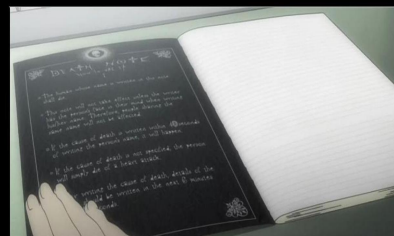

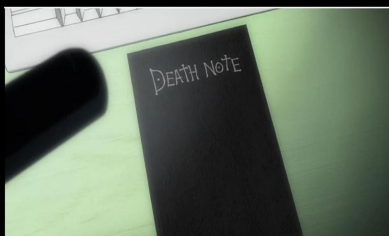

So I write a name and that person...dies

Like anyone would believe that.

Ugh!

Wait, on the off chance someone really dies, would that make me a murderer?

Yeah right, it's completely impossible.

The same assailant who attacked 8 people yesterday has struck again, taking

8 people hostage at a daycare center.

His captives include both children and teachers.

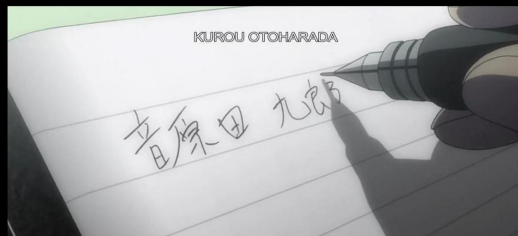

The police have now identified the suspect as forty two year old Kuro Otoharada, currently unemployed..

We expect negotiations to begin immediately.

Light writes the name of the suspect

Kuro Otoharada

Stares Timer

Hmm, a heart attack in forty seconds?

We'll see.

At the present time, that's all the police is telling us.

Reporting continues

Light waiting for forty seconds

Looks like the notebook doesn't work.

Oh well, I didn't expect it to anyway.

Wait, we're seeing something here!

Looks like there's movement at front entrance!

The hostages are coming out...
and they all look to be unharmed!

The Special Forces are moving in! We don't
know if the suspect's been arrested.

Huh? Yes? OK, we now have confirmation.

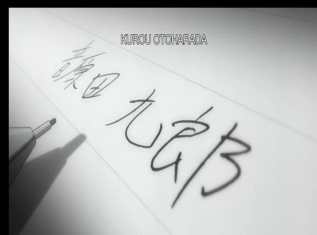

The suspect has been found dead inside!
I repeat, the suspect is now dead!

Dead?

Well, according to statements from hostages
the suspect just suddenly collapsed.

A heart attack? No way!

It's coincidence!

This has to be a coincidence!

The Death Note, it's unlikely

but if by chance this thing is for real,

I have to test it one more time
